BUSINESS AREAS

PAPER & WATER CHEMICALS

We work together with our customers to improve the productivity & efficiency by combining right chemistry, know how and application methods.

- Activated Carbon
- Aluminium Sulphate
- Ammoniac
- Bentonite
- Citric Acid
- Coagulant
- Defoamer
- EDTA
- Isothiazolin
- OBA
- PAC
- Polymer
- Quicklime
- Scale Control
- Scale inhibitor
- Sizing Chemicals
- Sodium Tripolyphosphate
- Starches
- TSP
- And many more

MINING CHEMICALS & CONSUMABLES

We support our customer to achieve higher productivity by providing quality products & on time delivery. Kemindo Cao Resources is a lime manufacturing factory located in North Sulawesi. We are committed to find our customers needs and full fill the needs.

- Activated Carbon
- Bentonite
- Caustic Soda
- Caustic Soda Liquid
- Caustic Soda Pearl
- Copper Sulphate
- Ethylene Glycol
- Ferrosilicon
- Grinding Balls
- Hydrated Lime
- Hydrochloric Acid
- Industrial Nitrogen
- Inhibitor
- Ion Exchange Resin
- Low Castable & Plastic Mix
- Methanol
- Parafinic Oil
- Peroxide
- Phosphoric Acid
- Quicklime
- SMBS
- Sodium Bisulfite
- Sodium Erythorbate
- Sodium Hypochlorite
- Stearic Acid
- Sulphuric Acid
- Zinc Powder

MINING

1. KEMINDO has 2 COAL MINES , location in Sumatera which currently serve to our existing customers in Pulp&Paper.
2. We are one of affiliates group of companies with activities start from producing coal, feeder barge and operator as well as stockpile management.

KEMINDO LOGISTICS

One Stop Solution is our Motto in Kemindo Logistic, we lodge Sea Logistic (Barge & Vessel) Warehouse as well as other logistics services.

- Ship to ship
- Warehouse
- Trucking
- Other Logistic Services

BUSINESS AREAS

KEMINDO GREEN ENERGY

Kemindo Green Energy is our developing business that based on BIO MASS concept, such as Palm Kernel Shell, Coconut Shell, Palm Kernel Meal, etc.

With current as buyer for CPO in Dumai with Big Storage Facility, KEMINDO has accessed to many Palm Oil Mills. Most of them have signed a long term contract for sustainability supply.

KEMINDO's factory in Sulawesi has also accessed to source of Coconut Shell for Active Carbon.

KEMINDO STARCH PLANT

GREEN ENERGY CONCEPT

First in Indonesia that KEMINDO JV built 100% Green Energy Factory to provide Native Tapioca Starch with production capacity above 15,000 ton/month.

Zero waste.

100% Green & Hygiene (fully equipped with SUS316)

Products :

ECOBOND®F , ECOBOND®B are well accepted in the market.

Factory has world-class processing equipment from EUROPE and support by experienced technical team
Cassava root supply has been largely confirmed, with legal contracted supply.

KEMINDO

YOUR SOLUTION PARTNER®

To provide exceptional solution products and quality services to our customers at the lowest possible cost. Our goal is to help our customers maximize their profitability. This objective is accomplished by creating a specific synergy between all the elements of the supply chain and the industrial process; bringing together the strength of our expertise, our own production sites, and our entire network to

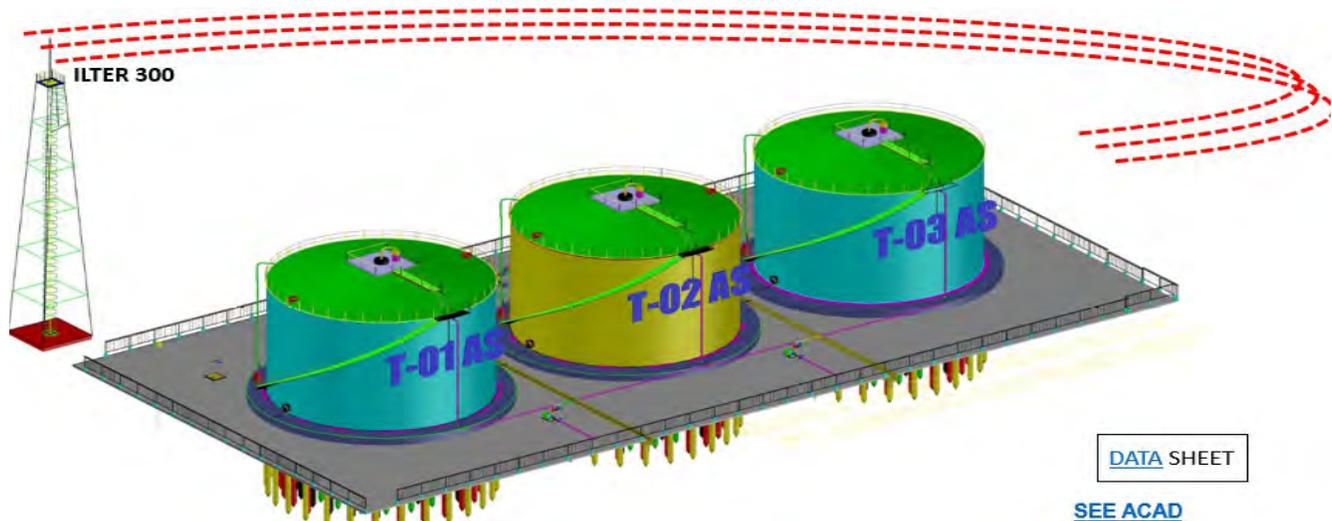

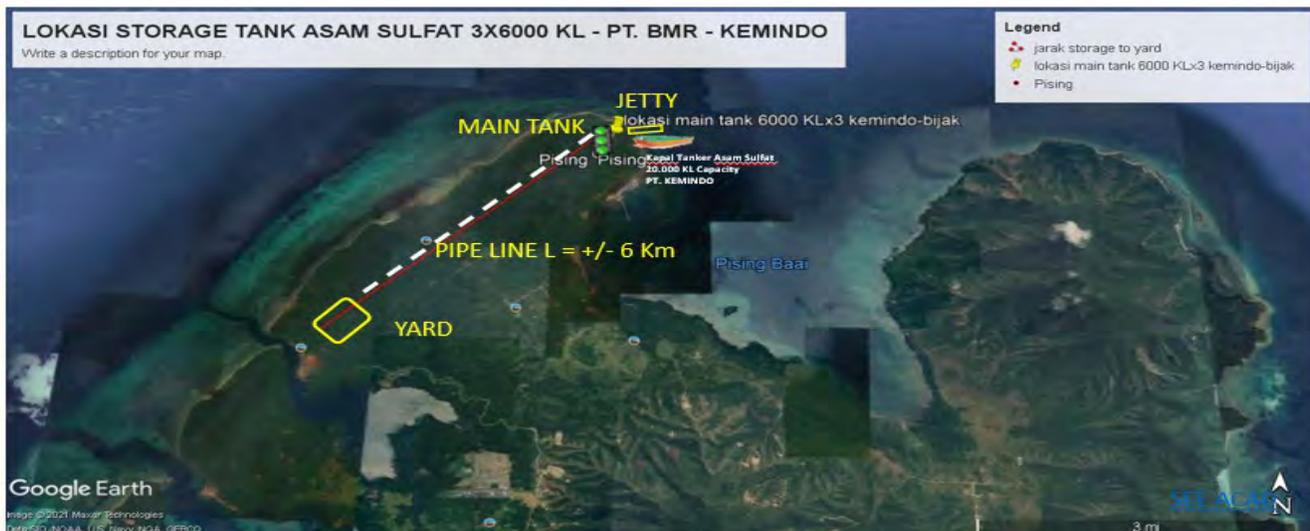

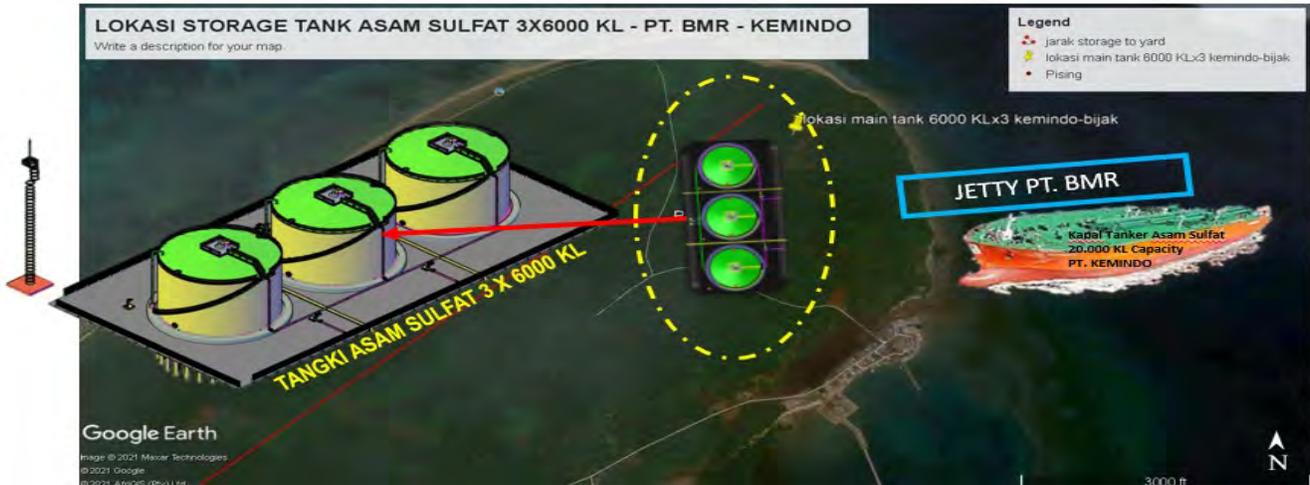

fulfill the needs of the customer. To be the best in the market we serve. To give the most value added to our Customers, Shareholders and Stackholders. Our operation will respect to regulations, including safety and environment protection. KEMINDO Group will participate in establishing a better social community.

Chemical & Consumable Part For, Mining, Paper & Various Industries, Tapioca Starch, Coal, Quicklime & Hydrated Lime, Burnt Coconut Shell, Palm Kernel Shell, Logistics & Shipment

NEW PROJECT

NICKEL SULFATE PROJECT (Raw material for EV Battery)

We are at the midst on building Sulfuric Acid Storage tank at Sulawesi, Indonesia. The storage is for 3x6000KL or about 32,500MTs of Sulfuric Acid Liquid. The consumption shall be 15,000T/M for 1st line. We are building up to 5 lines to support customer demand.
